

Sponsor of the ACN'2011 Conference

The International conference "Advanced Carbon Nanostructures" (ACN) integrates the 10th Biennial International Workshops "Fullerenes and Atomic Clusters" and the 4th International Symposiums "Detonation Nanodiamonds: Technology, Properties and Applications".

The Biennial International Workshops "Fullerenes and Atomic Clusters" (IWFAC) started in St Petersburg in October 1993. Since that time, the IWFAC has become one of the most representative world meetings in the field of fullerenes and carbon nanotubes. It is important to note the participation in the IWFAC'93-09 of the founders of this science and of the scientists who determine main directions in this field.

The first International Symposium "Detonation Nanodiamond. Technology, Properties and Applications" (NanoDiamond) was held in St Petersburg in July, 2003, then NATO Advanced Research Workshop and the Symposium were arranged in 2004, 2006, 2008.

The lists of invited speakers of the past IWFAC's and the Symposiums included well-known members of the nanocarbon world:

H.Kroto (UK, Univ. of Sussex), M. Dresselhaus (USA, MIT), M. Endo (Japan, Shinshu University), D.R.Huffman (USA, Univ. of Arizona), S.Iijima (Japan, NEC Corporation), W.Kraetschmer (Germany, Max-Plank-Institute), E.Osawa (Japan, Nanocarbon Research Institute), M. Prato (Italy, University of Trieste), H. Shinohara (Japan, Nagoya University), R.Taylor (UK, Univ. of Sussex), F. Wudl (USA, UCLA), T. Enoki (Japan, Tokyo Institute of Technology), D. Gruen (USA, Argonne National Laboratory), O. Williams (Belgium, Hasselt University), R. Carlson (USA, Molecular Diamond Technologies, Chevron Technology Ventures), J.L. Davidson (USA, Vanderbilt University), J. Wrachtrup (Germany, Stuttgart University), D. Ho (USA, Northwestern University), C.E. Nebel (Germany, Fraunhofer Institute) and others top-level scientists.

Ministry of Education and Science of the Russian Federation and Russian Foundation for Basic Research are permanent sponsors of the IWFACs and the NanoDiamonds. Besides the Russian Academy of Sciences, International Science and Technological Center, Frontier Carbon Corporation (Japan), Marcel Dekker, Inc (USA) and Rusnano as well as NT-MTD sponsored the conferences.

Based on experience of the previous conferences, the number of the participants of the ACN'2011 will be about 300, including 200 from Russia and 100 from European countries, Japan, USA, and other countries.

We hope you will support ACN'2011 to be held in Russia to the best of your ability. Your sponsorship in one of the categories listed below will be duly highlighted and advertised during the conference:

There are 4 types of sponsorships:

Major Sponsor, Gold Sponsor, Silver Sponsor, Sponsor.

Benefits for sponsors will include:

1. Sponsor (EUR 2,000)

- The name of the company and its logo will be printed on final Program, Book of Abstracts and pointed that the company is sponsor of the conference.

2. Silver Sponsor: (EUR 3,000)

- The name of the company and its logo will be printed on final Program and Book of Abstracts and pointed that the company is sponsor of the conference.
 - Acknowledgement and company logo will be included in all printed ACN's materials and an active link on the ACN'2011 website opening page.
 - Free distribution of promotional materials during the ACN'2011, which could be inserted in conference files, distributed among the participants.
3. Gold Sponsor (EUR 4,000)
- The name of the company and its logo will be printed on final Program and Book of Abstracts and pointed that the company is sponsor of the conference.
 - Acknowledgement and company logo will be included in all printed ACN's materials and an active link on the ACN'2011 website opening page.
 - Free distribution of promotional materials during the ACN'2011, which could be inserted in conference files, distributed among the participants. Free exhibition area for presentation of the company all days of the conference (about 5 –7 square meters)
 - Company logo displayed on the screen in the Opening and Closing sessions
4. Major Sponsor (EUR 8,000):
- The name of the company and its logo will be printed on final Program and Book of Abstracts and pointed that the company is sponsor of the conference.
 - Acknowledgement and company logo will be included in all printed ACN's materials and an active link on the ACN'2011 website opening page.
 - Free distribution of promotional materials during the ACN'2011, which could be inserted in conference files, distributed among the participants. Free exhibition area for presentation of the company all days of the conference (about 5 –7 square meters)
 - Company logo displayed on the screen in the Opening and Closing sessions
 - Company logo displayed on the screen prior to each session
 - Free of charge exhibition area for presentation of the company all days of the conference (about 5 –7 square meters)
 - Waive registration fee for 3 persons of the company
 - Opportunity to hang a banner at the registration place during the conference
