

International Symposium
Spin Waves 2013
St. Petersburg, Russia, June 9-15, 2013

First Announcement

Ioffe Physical-Technical Institute of the Russian Academy of Sciences continues a series of biennial International Symposia on Spin Waves organized since 1960th. These meetings are intended to provide opportunities for discussing advances in topical fundamental and applied research on magnetism. In 2013 the Symposium Program will be focused at but not limited to the following modern topics in magnetism:

- 1. Ultrafast magnetization dynamics.**
- 2. Excitations in quantum and frustrated magnets.**
- 3. Spin waves on surfaces and in multilayers.**
- 4. Spintronics and magnetism at nanoscale.**
- 5. Magnonics, magneto-photonics.**
- 6. Nonlinear spin-wave phenomena and relaxation processes.**
- 7. Novel probes of magnetism: THz, X-ray, neutron, etc.**
- 8. Spin-torque effects: oscillators, switching, DW motion.**
- 9. Advances in spin-based devices and technology.**

The Organizers kindly invite scientists and students from all countries to participate in the Symposium. Second announcement and the registration form will follow in January 2013.

Organizing committee

L. A. Prozorova, Chair
Institute of Physical Problems, Russia
M. Bayer
TU Dortmund University, Germany
S. A. Nikitov
Institute of Radioengineering, Russia
R. V. Pisarev
Ioffe Institute, Russia
Th. Rasing
Radboud University Nijmegen, The Netherlands
A. Slavin
Oakland University, USA

Local committee

R. V. Pisarev, Chair
A. M. Kalashnikova
L. V. Lutsev
V. V. Pavlov
