

Список публикаций по теме диссертации у ведущей организации:
Федеральное государственное бюджетное образовательное учреждение высшего образования «Санкт-Петербургский национальный исследовательский Академический университет Российской академии наук»

1. Dubrovskii, V.G. Model of selective growth of III–V nanowires (2015) *Technical Physics Letters*, 41 (12), pp. 1136-1138;
2. Kryzhanovskaya, N.V., Maximov, M.V., Nadtochiy, A.M., Blokhin, S.A., Bobrov, M.A., Kulagina, M.M., Troshkov, S.I., Zadiranov, Yu.M., Lipovskii, A.A., Moiseev, E.I., Kudashova, Yu.V., Ustinov, V.M., Zhukov, A.E. Room temperature continuous wave operation of injection quantum dot microdisk lasers (2015) *Journal of Physics: Conference Series*, 643 (1), art. no. 012002;
3. Grecenkov, J., Dubrovskii, V.G. Modelling polytypism in III-V nanowires: Role of group v and nucleation patterns during the growth (2015) *Journal of Physics: Conference Series*, 643 (1), art. no. 012017;
4. Egorov, A.Y., Babichev, A.V., Karachinsky, L.Y., Novikov, I.I., Nikitina, E.V., Tchernycheva, M., Sofronov, A.N., Firsov, D.A., Vorobjev, L.E., Pikhtin, N.A., Tarasov, I.S. Lasing of multiperiod quantum-cascade lasers in the spectral range of (5.6–5.8)- μm under current pumping (2015) *Semiconductors*, 49 (11), pp. 1527-1530;
5. Trukhin, V.N., Buyskih, A.C., Bouravlev, A.D., Mustafin, I.A., Samsonenko, Y.B., Trukhin, A.V., Cirlin, G.E., Kaliteevski, M.A., Zeze, D.A., Gallant, A.J. Generation of terahertz radiation by AlGaAs nanowires (2015) *JETP Letters*, 102 (5), pp. 316-320;
6. Golobokova, L.S., Nastaushv, Y.V., Dultsev, F.N., Kryzhanovskaya, N.V., Moiseev, E.I., Kozhukhov, A.S., Latyshev, A.V. Optical and electrical properties of silicon nanopillars (2015) *Semiconductors*, 49 (7), pp. 939-943;
7. Trukhin, V.N., Bouravleuv, A.D., Mustafin, I.A., Kakko, J.P., Huhtio, T., Cirlin, G.E., Lipsanen, H. Generation of terahertz radiation in ordered arrays of GaAs nanowires (2015) *Applied Physics Letters*, 106 (25), art. no. 252104;
8. Dubrovskii, V.G. The theory of nucleation and polytypism of III–V semiconductor nanowires (2015) *Technical Physics Letters*, 41 (2), pp. 203-207;
9. Karpov, S.V., Smirnov, M.B., Novikov, B.V., Smirnov, A.N., Shtrom, I.V., Chirkov, E.L., Tcirlin, G.E., Bouravleuv, A.D., Samsonenko, Y.V. Raman spectra and structural peculiarities of GaAs nanowires (2014) *Journal of Surface Investigation*, 8 (1), pp. 104-110.
