

**Список публикаций официального оппонента
Иоселевича Алексея Соломоновича**

1. Ioselevich, A. S., and D. S. Lyubshin. "Universality and non-universality in behavior of self-repairing random networks." JETP letters **89**, 422 (2009).
2. Akhmerov, A. R., and A. S. Ioselevich. "Universal temperature dependence of the conductivity of a strongly disordered granular metal." JETP Letters **83**, 211 (2006).
3. Ioselevich, Alexei S., and A. A. Kornyshev. "Approximate symmetry laws for percolation in complex systems: Percolation in polydisperse composites." Physical Review E **65**, 021301 (2002).
4. Ioselevich, A. S., and D. S. Lyubshin. "Phase transition in a self-repairing random network." JETP Letters **79**, 231 (2004).
5. Ioselevich, A. S., and V. V. Sivak. "Charge transfer mechanism in nonstationary granular systems." Physical Review B **92**, 224203 (2015).
6. Ioselevich, A. S., and D. S. Lyubshin. "“Burning and sticking” model for a porous material: suppression of the topological phase transition due to the backbone reinforcement effect." JETP Letters **89**, 519 (2009).
7. Ioselevich, A. S., and D. S. Lyubshin. "Percolation with excluded small clusters and Coulomb blockade in a granular system." JETP Letters **90**, 672 (2010).
