

**Список публикаций официального оппонента,  
Владимира Германовича Дубровского, по теме диссертации  
Мейлахса А.П.**

1) Kinetics of the initial stage of coherent island formation in heteroepitaxial systems

V.G. Dubrovskii, G. E. Cirlin, and V. M. Ustinov

Phys. Rev. B, Vol. 68, P. 075409, 2003

2) Critical diameters and temperature domains for MBE growth of III–V nanowires on lattice mismatched substrates

G. E. Cirlin, V. G. Dubrovskii, et. al.

Phys. Status Solidi, Vol. 3, P. 112, 2009

3) Growth mechanisms and crystallographic structure of InP nanowires on lattice-mismatched substrates

M. Moewe, L.C. Chuang, V.G. Dubrovskii, and C. Chang-Hasnain

J. Appl. Phys., Vol. 104, P. 044313, 2008

4) Analytical Study of Elastic Relaxation and Plastic Deformation in Nanostructures on Lattice Mismatched Substrates

X. Zhang, V.G. Dubrovskii, N.V. Sibirev, and X. Ren

Cryst. Growth Des., Vol. 11, P. 5441, 2011

5) Effect of growth kinetics on the InAsGaAs quantum dot arrays formation on vicinal surfaces

G.E. Cirlin, V.G. Dubrovskii, et. al.

Surf. Sci., Vol. 377, P. 895, 1997

6) Diffusion-induced growth of nanowires: Generalized boundary conditions and self-consistent kinetic equation

V.G. Dubrovskii, Y.Y. Hervieu

J. Cryst. Growth, Vol. 401, P.431, 2014
