

Список публикаций, Ведущая организация: МГУ им. М.В. Ломоносова

- 1) Afanasiev M.M., Kozyrev N.V., Kirstein E., Kalevich V.K., Zhukov E.A., Mantsevich V.N., et al., "Electron g-factor in coupled quantum wells CdTe and CdMnTe", Journal of Physics: Conference Series, 1400, 066023 (2019)
- 2) Smirnov A.M., Mantsevich V.N., Smirnov D.S., et al., Heavy-hole and light-hole excitons in nonlinear absorption spectra of colloidal nanoplatelets, Solid State Comm., 299 113651 (2019)
- 3) Mantsevich V.N., Glazov M.M., "Fluctuations of tunneling currents in photonic and polaritonic systems", Phys. Rev. B, 97 155308 (2018)
- 4) Mantsevich V.N., Tarasenko S.A., "Fluid photonic crystal from colloidal quantum dots", Phys. Rev. A 96(3) 033855 (2017)
- 5) Ikonnikov A.V., Chernichkin V.I., Akopian D.A., Dudin V.S., Dolzhenko D.E., Nikorici A.V., Ryabova L.I., Khokhlov D.R., "Fourier-Transform Spectroscopy of the Persistent Photoconductivity in PbSnTe(In) Films at Low Temperatures", Low Temp. Phys. 45(2) 141 (2019)
- 6) Kotova M.S., Drozdov K.A., Dubinina T.V., Kuzmina E.A., Tomilova L.G., Vasiliev R.B., Dudnik A.O., Ryabova L.I., Khokhlov D.R., "In situ impedance spectroscopy of filament formation by resistive switches in polymer based structures", Scientific Reports, 8 9080 (2018)
- 7) Galeeva A.V., Egorova S.G., Chernichkin V.I., Ryabova L.I., Danilov S.N., Nicorici A.V., Khokhlov D.R., "Magnetic-Field-Induced Terahertz Photogeneration in PbTe(Ga)", JETP Lett., 104(1) 68 (2016)
- 8) Арсеев П.И., Манцевич В.Н., Маслова Н.С., Панов В.И., "Особенности туннельных процессов в полупроводниковых наноструктурах", УФН, 187 (11) 1147 (2017)
- 9) Oreshkin A.I., Mantsevich V.N., Savinov S.V., Oreshkin S.I., Panov V.I., Maslova N.S., Louzguine-Luzgin D.V., "Direct visualization of Ni-Nb bulk metallic glasses surface: from initial nucleation to full crystallization", Appl. Phys. Lett. 101(18) 181601 (2012)
- 10) Mantsevich V.N., Maslova N.S., "Spatial distribution of local density of states in vicinity of impurity on semiconductor surface", JETP Lett., 89(12) 609 (2009)
