

Список публикаций оппонента

Оппонент Рывкин Борис Соломонович (ФТИ им. А.Ф. Иоффе), 107 работ по версии Scopus. Основные работы близкие к теме диссертации:

1. Avrutin,EA; Ryvkin,BS; Kostamovaara,JT
«AlGaAs/GaAs asymmetric-waveguide, short cavity laser diode design with a bulk active layer near the p-cladding for high pulsed power emission».
IET Optoelectron., v.15, 4, 2021, с. 1 – 6
2. Avrutin,EA; Ryvkin,BS
«Effect of spatial hole burning on output characteristics of high power edge emitting semiconductor lasers: A universal analytical estimate and numerical analysis».
J. Appl. Phys., v.125, 2, 2019, номер статьи #023108
3. Avrutin,EA; Ryvkin,BS; Kostamovaara,JT
«Analysis of waveguide doping effect on losses in high power semiconductor amplifiers and lasers». 2018, с. 142 - 142
2018 International Conference Laser Optics, ICLO 2018; St.Petersburg, Russian Federation; 4-8 June 2018
4. Avrutin,EA; Ryvkin,BS
«Theory of direct and indirect effect of two-photon absorption on nonlinear optical losses in high power semiconductor lasers».
Semicond. Sci. Technol., v.32, 1, 2017, номер статьи #015004
5. Ryvkin,BS; Avrutin,EA; Kostamovaara,JT
«Strong doping of the n-optical confinement layer for increasing output power of high-power pulsed laser diodes in the eye safe wavelength range».
Semicond. Sci. Technol., v.32, 12, 2017, номер статьи #125008
6. Avrutin,EA; Ryvkin,BS
«The role of carrier accumulation in the optical confinement layer in output efficiency deterioration of laser diodes».
IEEE Int. Semicond. Laser Conf., 2016, номер статьи #WS2
25th International Semiconductor Laser Conference, ISLC 2016; Kobe, Japan; September 12-15, 2016
7. Avrutin,EA; Ryvkin,BS
«Theory and modelling of the power conversion efficiency of large optical cavity laser diodes». 2015, с. 9 - 10
High Power Diode Lasers and Systems Conference (HPD), Scottish Chapter IEEE Photon Soc, Coventry, UK, October 14-15, 2015
8. Ryvkin,BS; Avrutin,EA; Kostamovaara,JT
«Narrow versus broad asymmetric waveguides for single-mode high-power laser diodes».
J. Appl. Phys., v.114, 1, 2013, номер статьи #013104
9. Ryvkin B.S., Avrutin E.A.
«Asymmetric, nonbroadened large optical cavity waveguide structures for high-power long-wavelength semiconductor lasers»
Journal of Applied Physics. – 2005. Vol. 97, № 12. – P. 123103.
