1. Bobrynina E.V., Larionova T.V., Koltsova T.S., Shamshurin A.I., Tolochko O.V., Nikiforova O.V., Puguang J., Fuxing Y.  
THE EFFECT OF FULLERENE SOOT NANOPARTICLES ON THE MICROSTRUCTURE AND PROPERTIES OF COPPER-BASED COMPOSITES  
Nanomaterials. 2020. v. 10. № 10. p. 1-12.  
DOI: 10.3390/nano10101929
2. Larionova T.V., Yunusov F.A., Bobrynina E.V., Koltsova T.S., Tolochko O.V.  
FULLERENE SOOT-REINFORCED AL-BASED COMPOSITES AND THEIR DENSIFICATION VIA COPPER ADDITION  
Journal of Materials Engineering and Performance. 2020. v. 29. № 8. p. 5195-5202.  
DOI: 10.1007/s11665-020-05024-0
3. Bobrynina E.V., Larionova T.V., Koltsova T.S., Shamshurin A.I., Tolochko O.V.  
A NOVEL COPPER-MATRIX COMPOSITE WITH FULLERENE SOOT NANOPARTICLES PRODUCED BY MOLECULAR LEVEL MIXING  
Materials Letters. 2021. v. 304. p. 130514.  
DOI: 10.1016/j.matlet.2021.130514
4. Koltsova T.S., Bobrynina E.V., Larionova T.V., Salynova M.A., Tolochko O.V.  
STRUCTURE AND PROPERTIES OF COPPER-BASED COMPOSITE WITH DIFFERENT TYPES OF CARBON NANOSTRUCTURES  
Diamond and Related Materials. 2022. v. 124. p. 108933.  
DOI: 10.1016/j.diamond.2022.108933
5. Gorbachev Y.E., Leshchev D.V.  
Source of carbon as a key factor in diamond deposition  
Fullerenes Nanotubes and Carbon Nanostructures, 2022, 30(1), стр. 71–75.  
<https://doi.org/10.1080/1536383X.2021.1993442>
6. Gorbachev, Y.E., Leshchev, D.V.  
On the role of atomic carbon in diamond growth  
Fullerenes Nanotubes and Carbon Nanostructures, 2022, 30(1), p. 76–79  
<https://doi.org/10.1080/1536383X.2021.1993193>
